SUPPORT • EMPOWER
COUNSEL • CONSULT

TCA is an association of professional counselors that provides leadership, service and advocacy and that promotes education and ethical standards.

The Texas Counseling Association

IT'S ABOUT PEOPLE

Licensed Professional Counselors (LPC)

- provide quality mental health care to millions of Americans of all ages.
- complete a masters or doctorate and a post graduate internship.
- pass a licensure examination and participate in continuing education for licensure renewal.
- adhere to a professional code of ethics that promotes confidentiality.

Licensed Professional Counselors build therapeutic relationships.

Licensed Professional Counseling is the process of building a therapeutic relationship through which mental health and human development principles and strategies are applied to address social, emotional, mental and behavioral difficulties.

Licensed Professional Counselors address many issues.

Licensed Professional Counselors offer help in addressing many concerns or situations such as:

- Abuse and assault related issues
- Addictions
- Aging concerns
- Career counseling
- Child and adolescent issues
- Couple and family relationships
- Eating disorders
- Grief and bereavement
- Illness and disability issues
- Mental illness
- Mood disorders
- Stress Management

Licensed Professional Counselors provide quality mental health care to millions of Americans of all ages.

Licensed Professional Counselors can be found in a wide-range of settings.

Counselors work in hospitals, all levels of schools and universities, mental health agencies, rehabilitation facilities, businesses, religious organizations, community centers, and private practice.
